

HEAT UP YOUR PROFITS

WITH EFFICIENCY & STYLE

Up to 3 times more efficient than traditional Mushroom heaters, the BROMIC Tungsten Portable Gas heater has got you covered!

Featuring **award-winning design**, the Tungsten Portable uses **directional radiant heat** to warm objects rather than the air. This creates more targeted heat coverage and in turn **requires less units** to heat the same space as traditional mushroom heaters, keeping patrons comfortable and coming back for more.

Operational Expense Savings

£ **36,952**

IN ONE YEAR

£ **258,661**

THROUGHOUT THE
TUNGSTEN'S 7-YEAR LIFESPAN

Based on 90m² of space being heated for 4 hours per day:

| | STANDARD MUSHROOM HEATER | TUNGSTEN PORTABLE HEATER |
|--------------------------------|--------------------------|--------------------------|
| Area of Heat Coverage Per Unit | 7m ² | 20m ² |
| Number of Units Needed | 10 | 5 |
| Cost for 13kg Tank of Propane | £43.99* | £43.99* |
| Tanks Used Daily | 5 | 2.5 |
| Cost per Day | £220 | £110 |
| Cost per Month | £6,159 | £3,079 |

*Cost for 13kg tank of propane (Source: bbqgaslondon.co.uk)

Bromic's radiant heating efficiency allows you to cover more space with fewer units.
